September 16 - March 31 [No demand charge]

Anytime Demand Charge:

April 1 – September 15 \$2.00 per kW, per month

September 16 - March 31 [No demand charge]

Energy Charge:

April 1 - September 15 \$0.0668 per kWh

September 16 – March 31 \$0.1532 per kWh

Determination of Billing Demand

The billing demand shall be the maximum kilowatt (kW) demand established by the customer for any fifteen (15) consecutive minute period during the month for which the bill is rendered, as indicated or recorded by the District's metering equipment. The peak period is Monday through Saturday, 12:00 noon to 10:00 PM Mountain Time, excluding the following holidays: Memorial Day, Independence Day, and Labor Day. Anytime Demand will be charged on the highest recorded demand during a month. In addition, a Peak Period Demand will be charged only to the peak demand registered during the peak periods during a month.

Minimum Monthly Charge

The minimum monthly charge shall be the following, as determined by the District:

- The monthly minimum billing amount as specified by contract between the District and the customer. If the original term of the contract has expired, then

- The applicable basic charges for one year, plus one month total peak period demand charge. The demand value will be the average demand of the fully operational/pumping system demand set during the previous irrigation season or prior to the disconnect/discontinuance of the service. For services without usage history, the demand will be calculated by the District based upon service characteristics (e.g. kW based on HP).

Rate Requirements

A service must be signed up for this rate by March 1 and remain on the rate for an entire irrigation season. The Off Peak Period Demand fee will not be allowed to be waived for testing purposes.

Production Cost Adjustments

In the event that adjustments are made to the District's wholesale cost of power, charges or credits shall be made to this rate accordingly. Such charges or credits shall be billed separately as "Production Cost Adjustments." If changes are made to the wholesale supplier's power rate for the District, the District reserves the right to change this rate to reflect the wholesale supplier changes.
