

**ELECTRIFY AND SAVE®**

BENEFICIAL ELECTRIFICATION & EFFICIENCY PRODUCTS

Version date: January, 2024

Since 1985, Tri-State has partnered with distribution members to promote the wise use of electricity, energy efficiency and implementation of new electric technologies. Today, Tri-State and the distribution members are moving forward to promote beneficial electrification to increase efficiency and productivity, create sustainable load growth, reduce carbon emissions, and enhance safety for Tri-State, distribution members and member consumers alike.

Product eligibility and rebate incentives are subject to change, please contact your local Cooperative or Public Power District to verify program participation and application requirements before making any purchases or applying for incentives. Receipts are required for most rebate incentives and must clearly show detailed product make and model information, associated labor costs, consumer name, date and verification of purchase/payment. The installation or purchase of used and/or refurbished equipment is not eligible for any rebate incentives under the program.

Additional Resources

Contact your appropriate state agency for additional information. State, federal and your utility's incentives are stackable. In addition to the rebates in this document, there are potential rebates from the IRA available in 2024 for those who electrify their homes. The Inflation Reduction Act (IRA) is the largest energy efficiency legislation Congress has ever passed and is designed to increase energy innovation and reduce carbon emissions.

To estimate how much you're eligible for, use the Rewiring America IRA Calculator. www.rewiringamerica.org/app/ira-calculator

PRODUCT	GENERAL SPECIFICATIONS	INCENTIVE OVERVIEW
COMMERCIAL		
Commercial LED lighting	<ul style="list-style-type: none"> • Includes exterior wall mounted lighting, exterior pole mounted lighting, refrigerated case lighting, and interior lighting • For both new construction and retrofits • Design Lights Consortium or Energy Star® certification required for all lamps and fixtures • One project per category, per member-owner account per year • Product specification sheets must be included • Product model numbers, quantities & cost must be verifiable 	<ul style="list-style-type: none"> • Pre-set incentive amount by fixture type • Pole mounted lighting cap of \$20,000 or 25% of total LED head cost per project/account • Refrigerated case lighting cap of \$3,000 or 50% of total LED fixture cost per project/account • All other retrofit or new construction fixture/bulb types have a combined cap of \$20,000 or 50% of LED fixture cost
Commercial and industrial motors	<ul style="list-style-type: none"> • 10hp and above are eligible • Commercial and industrial motors only • Used and rewound motors are not eligible 	<ul style="list-style-type: none"> • \$8/hp • \$1.50/hp wiring assistance if the motor replaces a fossil-fueled engine, or is a new installation • Per project cap of \$20,000
Variable Speed Drive (VSD)	<ul style="list-style-type: none"> • Electric motor sizes 25hp and larger • Applies to irrigation, farm, commercial and industrial uses • New and retrofit installations only, no maintenance replacements 	<ul style="list-style-type: none"> • Sliding scale from \$1,600 to \$6,800 • Based on motor horsepower • Cap of 50% of the VSD equipment costs • Per project cap of \$20,000
Commercial and industrial assessments	<ul style="list-style-type: none"> • Service providers perform on-site assessments and report findings • Service providers identify opportunities to: electrify loads, manage loads and reduce energy • Service providers are available for Oil & Gas midstream and C&I facilities • Tri-State reserves the right to limit participation and assessment funding 	<ul style="list-style-type: none"> • Assessment service costs can be covered up to 75% or more • In some cases rebate funding may be available to implement improvement measures • Custom rebates can be considered where rebate incentives aren't available
Irrigation assessments	<ul style="list-style-type: none"> • Irrigation assessments can be performed by certified energy auditors with irrigation experience, certified well or irrigation system servicers, or other knowledgeable entities • Actionable items may qualify for additional Tri-State BE&E products 	<ul style="list-style-type: none"> • 75% to 100% of assessment costs are covered up to \$1,500
Fork lift electrification	<ul style="list-style-type: none"> • Eligible equipment includes fork lifts and electric pallet jacks 	<ul style="list-style-type: none"> • Up to \$5,000 for electric fork lifts • Up to \$1,500 for electric pallet jacks • Project cap of \$20,000
