RESPONSIBLE DEPARTMENT: Operations

ACCOUNTABLE: CEO

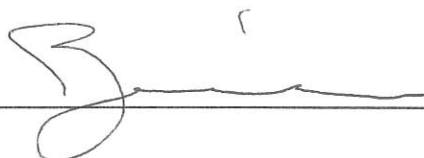

Customer requested service connections or disconnects are normally completed by Wheat Belt crews during normal working hours.

Should a request be received from a customer for connection of a new service (the customer must have the required permits) or the disconnect or reconnect of an existing service, for the customer's convenience during non-working hours, a service fee of \$50 will be assessed to all single-phase services and \$250 for all three-phase services.

Wheat Belt has the discretion not to bill a customer in an emergency situation. Emergency situation is defined as any situation where safety is the main contributing factor.
